WORK EXPERIENCE & OPEN SOURCE CONTRIBUTIONS

Open Source Contributor - CNCF/glossay

- Contributed to the term "Loosely Coupled Architecture" which will be released in Version 2 of CNCF/glossary
- Improved the current documentation and made it more accessible.

Open Source Contributor - MDN (Mozilla Developer Network)

- Minor bug fixes and improved some of the overall documentation.

Community Manager - DevIncept (Remote)

Feb. 2021 - Mar. 2021

- Managed community members, events and overtook the job of guiding the newly hired interns towards their goals.

Web Development Intern - DevIncept (Remote)

Sept. 2020 - Dec. 2020

- Created a new blog page for the organization to publish tutorial blogs.
- Improved main website's accessibility by implementing SEO.

VOLUNTEERING EXPERIENCE

- Working towards making education accessible to all, for free. (**College Leader - Community Classroom**)
- Teaching fellow classmates and students about API literacy and encouraging them to try and adopt APIs. (**Postman Student Expert - Postman**)
- Volunteered in various Hackathons over the past few months where I was involved in helping organizers during the Hackathons.
-> Elle Hacks 2021 -> Aston Hacks -> CUNY Hacks

PROJECTS

- D2-MEDIA** - It is a fully- responsive, SEO optimized site that provides some simple services in Ghana.
- Weather App** - It is a simple weather app that shows the temperature of the searched place using **OpenWeatherMap API**
- Implemented Speech to text, text to speech, and speech translation programs using **cognitive services** from **Microsoft Azure**

AWARDS
